

PROVISIONAL STATUS UPDATE ON THE CONSTRUCTION OF THE NURSERY SECTION AT SHAK JUNIOR SCHOOL

Volume 3

Submitted to: The Friends and Supporters of SHAK Junior School

Through: Klaus Gresser

Dear Klaus, on behalf of the SHAK Junior School, I wish to take this opportunity to once again acknowledge the receipt of 2,305 Euros advanced to us to enable us take further steps on the construction works for the Nursery section at our school. I wish to report that the funds have been well utilized and allow me to submit this status update to you and all our friends and supporters.

At this point the building tem had just embarked on the second phase of wall elevation picking from where we had stopped

Stretching the inside walls that connect from the Top Classroom through the corridor

Elevation of some inner walls as seen from the behind side of the building

Look of the building at beam Level just before putting the tie beam and elevating the walls for the shade

At this level, the tie beam for the main walls is done, walls for the shade yet to be fixed/elevated

The current front view of the building just after completing walls and tie beam for the shade area

Now the Unfinished business

The pictures below show the few parts of the building from the behind side that still need to be completed. These parts are around the waiting shade and the rest/care room as per the plan. It involves completing the tie beam for the waiting shade and joining some wall around this area.

We believe that the remaining portion of the budget should really be sufficient to complete these works

Once again we wish to express our sincere gratitude to the friends and supporters of SHAK Junior School whose generous donations have powered this work and enabled us to move this far. It is quite amazing! May the good lord reward you abundantly. It is our hope and prayer that you continue walking with us on this noble cause and support us to do much more as we strive to seed the future for the vulnerable children in the community of Bulabakulu and Uganda at large. Thank you

Prepared by

Saad Luyinda, Director, SHAK Junior School
